

# EMMANUEL PROJECT

## Pilot

Six months to prove concept and establish processes and procedures

Focus on pediatric and veteran care in Northeast Florida

Establish partnerships with local nonprofits and governments

**"SPEND YOURSELVES IN BEHALF OF THE HUNGRY AND SATISFY THE NEEDS OF THE OPPRESSED, THEN YOUR LIGHT WILL RISE IN THE DARKNESS"**

ISIAIH 58:10

The Emmanuel Project treats the underserved population of Northeast Florida by removing barriers to care. Mobile clinics will be deployed throughout Northeast Florida to serve at-risk populations to include children, homeless, and veterans.

By serving those unable to access care, the Emmanuel Project will reduce Emergency Department visits, improve population health, reduce readmissions in hospital systems, and improve access to care. Patients and parents will also receive education and encouragement from seasoned healthcare professionals.

This model cares for the underserved and saves governmental and healthcare dollars for emergency care. The Emmanuel Project will care for others with the love of Christ.
